

Employee Handbook Sale!

CALIFORNIA IS ONE OF THE STRICTEST states when it comes to requirements for employers, regardless of the number of employees. An Employee Handbook communicates policies and expectations to your employees and if not properly written, it can create legal implications for your company.

These are challenging times and we feel that every good business should have an Employee Handbook that includes all the necessary information, and that reflects the company's philosophy and culture. **South Bay HR, Inc.** has partnered with a highly respected Los Angeles employment law firm to provide customized, affordable Employee Handbooks so that you can focus on other areas of your business.

We'll incorporate your existing policies and procedures, and work with you to develop any new ones. We compile them into a complete handbook, prepared by an

employment law firm, ready for emailing to staff, posting on your website or printing to hardcopy. This cost also includes consult time with a senior employment law attorney.

South Bay HR, Inc. provides outsourced, onsite, hourly Human Resources support and recruiting services. As trusted advisors for many businesses, we provide you with HR services that you would have if you had your own professional HR staff.
